

YOUR HOMETOWN PHARMACY

CITY DRUG, YOUR HOMETOWN PHARMACY SINCE 1889

New Product Line Highlight TETON NATURALS

Andrew Cannon, Pharmacist/Owner of City Drug, has always prided himself on providing the best supplements to his patients so they can live their best lives. Supplements benefit us where we are deficient. This is important within pharmacy because pharmaceutical drugs deplete important vitamins and minerals from our bodies that we need to function at our best. Over the years, Andrew has spent countless hours researching supplement companies to provide the best for his patients. Out of frustration that many companies offer expensive but mediocre products, Teton Naturals was born. Andrew designs every product and ensures each one is of the highest quality. One of the most important qualities of a supplement is their bioavailability - how the body absorbs and uses it to function. Teton Naturals supplements are micronized to provide the best absorption to give you the best outcomes. Teton Naturals guarantees product satisfaction 100% or your money back. Check out Teton Naturals today at their website, www.tetonnaturals.com.

Employee Highlight

Adam Cannon, Pharmacy Technician

Adam comes from a family of 8 children, is a Utah native and made the move to Wyoming in 2015 to enjoy the simpler things in life. Adam became a technician at City Drug at that time and joined his brothers, Andrew and Stephen at City Drug. One of Adam's remarkable qualities is his natural ability to solve problems and design innovative solutions. These skills, coupled with his unwavering dedication, make him a go-to person for anyone seeking assistance. Adam has been working as a technician since 2015. His wife, Jules, also works at City Drug. They live in Evanston with their son Hunter.

Supplement Highlight

Pro Immune Plus:

The dynamic nature of the immune system means that all factors that affect health need to be addressed for it to function at peak performance. While vitamin deficiencies can compromise the immune system, consuming immune-enhancing nutrients and botanicals can support and strengthen the body's immune response.

Pro Immune Plus contains the synergistic nutrient blend of zinc, vitamin C, vitamin A, L-lysine and pantothenic acid which each play a major role in maintaining a healthy, functioning immune system.

"If everyone grew and cooked their own food, there would be no need for supplements. Unfortunately, this is not the case and we do need them."
